

Welcome to Apples on the Tree!

Hello! My name is Jade and I own Apples on the Tree in Burpengary! I started my Family Day Care journey way back in 2005, when my own children were young....and I have been in love with it ever since!

We are lucky enough to be nestled in between lots of trees, green grass and gardens... ideal for exploration and adventure- even having access to our animal paddock which has goats and chickens! The children become very fond of this adventure and we often grow and make delicious treats for our farm friends too! Sometimes it's just a space to run, jump and use our imaginations!

We are big believers of having a rich childhood, filled with mud, sand, bare feet and opportunities to learn about the world around us! Over the years, the children who have blessed this space have left behind lots of ideas and experiences for all children to discover and enjoy! They have built gardens, designed play spaces and helped to develop new and wonderful 'ways of doing things'! We are a village of support, adventure and growth!

If this sounds like something you would like to be part of, please don't hesitate to contact me via our Facebook page ☺
